

Tri-County Career Center Placement and Follow-up Services plan

To provide placement services for all completers of full-time career development programs. Identification of responsibility for coordination of services

The Director is ultimately responsible for the coordination of placement. The Student Services Supervisor and/or Employability Instructor provides full time career development program completers with placement assistance in regard to cover letters, resumes, job search skills, interviewing skills, and employment leads. We have job support agencies such as Jobs and Family Services. One further support is an academic support through our ABLE lab. We have a TV system in both building that post jobs and hiring events. Twice a year we have advisory meetings and institutional/stakeholder meetings. We hold an annual Future Fair to allow students to speak with potential employers.

Objective	Strategies	Evidence of completion	Target Completion Date Person(s) Responsible
Advisory Meeting Twice a Year	Fall advisory committee and stakeholders meeting	Sample advisory committee minutes	December 2017 Director / K. Smith
